“YOUR SAFE WORKPLACE / PLACE OF BUSINESS”

Today – The increased demands in “Workplace Sanitation” continues to drive new and innovative solutions for providing healthy environments for businesses, their employees, and Customers while new antibiotic resistant pathogens have emerged as serious threats to Public Health. NEW “PUREBRIGHT” Germicidal ULTRA Bleach now offers “your place of business” protection against these threats.

“PUREBRIGHT” Germicidal ULTRA Bleach is very different from the old legacy bleaches in the marketplace. The “older style” chlorine bleaches have no “specific germ kill” claims in their registrations and DO NOT offer a specific “kill claim” against basic germs such as E. Coli; MRSA, Salmonella, Herpes, HIV, H1N1, HBV, HCV a host of others... While adequate general sanitizers / disinfectants these older “grandfathered” formulas cannot begin to address the increasing concerns that C. Difficile spores have presented in healthcare facility infection control. “PUREBRIGHT” Germicidal ULTRA Bleach has 50 “Documented” Specific Germ Kills and provides your business and valued clientele a much more secure clean place to frequent.

““PUREBRIGHT” Germicidal ULTRA Bleach is a “Solid Value” if your business fits any of the classes listed below...
